## We are leading the way in promoting corporate governance and sustainable development

According to "CG WATCH 2020" from ACGA, The Asian Corporate Governance Association, Taiwan ranks 4<sup>th</sup> in Asia. TPEX has encouraged companies to strengthen corporate governance practices and business health for many years. To enable this, we designed evaluation guidelines covering four categories. These categories include protection of shareholders' rights, operational guidance for a well-structured board of directors, information transparency improvement, and the implementation of sustainable development. Each year evaluation and annual grading of listed companies is conducted and this has been done for 8 years, with the results communicated to the general public. In the future, TPEX will continue to vigorously promote best practices in corporate governance. In 2021, the provisions of "Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies" were amended to strengthen the sustainable development of companies. In 2022, TPEX has established a "Sustainability Road Map Area" to assist companies in disclosure of GHG inventory information, and has added a "Corporate ESG Information Disclosure" section to MOPS for investors' reference.
